We had some "DILL"-icious fun for National Pickle Day!

What about you? Do you love pickles, too?

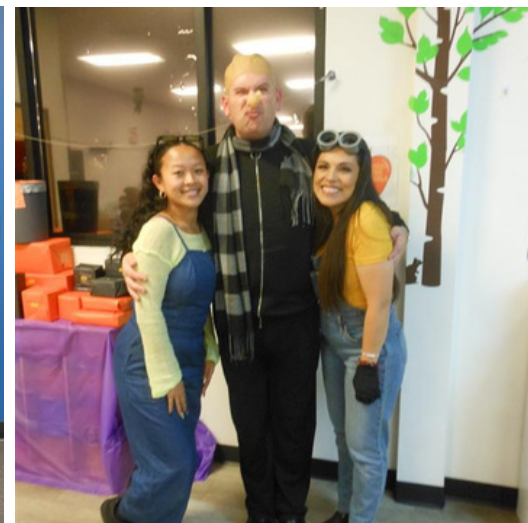

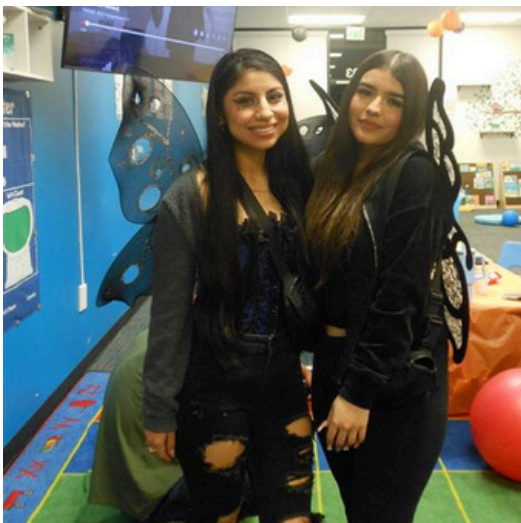

Sour, sweet and spicy, good ol' dill... Should we try them all? You know we will!

Pickles, pickles, pickles: we really RELISH you.

My big WOW is my kiddo, when he first came to ABS kids he was very shy and reserved He is coming out and being more verbal and social, he's actually using full sentences and manding for his wants and needs, he calls some staff (and peers) by their name when greeting them. I am so very proud of my kiddo and watching him achieve so many of his goals and seeing him become more social and interacting with his peers gives my heart joy!!! #loveABA ❤️

Goodmorning team I know it's early in the west coast but I didn't want to forget to share this WOW MOMENT from my Monday session with my four year old kiddo. At the end of every session mom full physical prompts him to wave bye. And this past Monday mom modeled waving to me as I was leaving and learner INDEPENDENTLY WAVED ☐ my kiddo never ceases to amaze me. Go H!! 🤗🤗
